Notes to the consolidated financial statements

June 30, 2013

(Expressed in Canadian dollars)
(Unaudited)

1. Nature of Operations and Continuance of Operations

West Kirkland Mining Inc. (formerly Anthem Ventures Capital Corp.) ('West Kirkland' or the 'Company') was incorporated on April 3, 2007, under the Company Act of the Province of British Columbia, Canada. The Company was a capital pool corporation, and on May 28, 2010, completed its Qualifying Transaction as that term is defined in TSX Venture Exchange Policy 2.4. The Company acquired all of the issued and outstanding shares of WK Mining Corp. ('WK Mining') which has been accounted for as a reverse takeover that does not constitute a *business* combination. As a result, these consolidated financial statements reflect the financial position, financial performance and cash flows of the Company's legal subsidiary, WK Mining. The address of the Company's registered office is Suite 788 – 550 Burrard Street, Vancouver, BC, V6C 2B5.

The Company is an exploration company working on mineral properties it has staked or acquired by way of option agreement, in Nevada, Utah and Ontario. The Company has not yet determined whether these mineral properties contain any economically recoverable ore reserves. The Company defers all acquisition, exploration and development costs related to the properties on which it is conducting exploration. The recoverability of these amounts is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of the interests, and future profitable production, or alternatively, upon the Company's ability to dispose of its interests on a profitable basis.

These financial statements have been prepared in accordance with International Financial Reporting Standards, ('IFRS') applicable to a going concern, which assume that the Company will realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Since inception, the Company has incurred cumulative losses of \$10,258,949 as at June 30, 2013 and a comprehensive loss for the six months ended of \$533,671. These factors may cast significant doubt regarding the Company's ability to continue as a going concern. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts on the statements of financial position.

2. Basis of Presentation

(a) Statement of Compliance

These unaudited condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting* ('IAS 34') using accounting policies consistent with International Financial Reporting Standards ('IFRS'). Accordingly, certain disclosures included in annual financial statements prepared in accordance with IFRS have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2012.

The accounting policies applied in these interim condensed consolidated financial statements are those the Company expects to adopt in its consolidated financial statements for the year ended December 31, 2013 and have been applied consistently to all periods presented by the Company and its subsidiaries.

(b) Recent Accounting Pronouncements

The Company has adopted the following new and revised standards, along with any consequential amendments, effective January 1, 2013. The adoption of these standards has had no impact on the Company's presentation of its financial position or results of operations as at June 30, 2013.

IFRS 10, Consolidated Financial Statements: IFRS 10 identifies the concept of control as the determining factor in assessing whether an entity should be included in the consolidated financial statements of a parent company. Control is comprised of the investor possessing power over the investee, the investor having exposure to variable returns from its involvement with the investee, and the ability for the investor to

West Kirkland Mining Inc.

Notes to the consolidated financial statements

(Expressed in Canadian dollars)
(Unaudited)

use its power over the investee to affect those returns. The accounting requirements for consolidation have remained largely consistent with IAS 27, which has been renamed 'IAS 27 – Separate financial statements' (see below).

IFRS 11, Joint Arrangements: IFRS 11 supersedes IAS 31, *Interests in Joint Ventures*, and requires joint arrangements to be classified either as joint operations or joint ventures depending on the contractual rights and obligations of each investor that jointly controls the arrangement. For joint operations, a company recognizes its share of assets, liabilities, revenues and expenses of the joint operation. An investment in a joint venture is accounted for using the equity method as set out in IAS 28, *Investments in Associates and Joint Ventures*.

IFRS 12, Disclosure of Interests in Other Entities: IFRS 12 establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles, and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity's interests in other entities.

IFRS 13, Fair Value Measurements: IFRS 13 provides a single framework for measuring fair value. The measurement of the fair value of an asset or liability is based on assumptions that market participants would use when pricing the asset or liabilities under current market conditions, including assumptions about risk.

IAS 27, Separate Financial Statements: IAS 27 has been updated to require an entity presenting separate financial statements to account for those investments at cost or in accordance with *IFRS 9 Financial Instruments*. The new IAS 27 excludes the guidance on the preparation and presentation of consolidated financial statements for a group of entities under the control of a parent, which is within the scope of the current IAS 27 Consolidated and Separate Financial Statements, and is replaced by IFRS 10 (see above).

IAS 28, Investments in Associates and Joint Ventures: IAS 28 has been updated and it is to be applied by all entities that are investors with joint control of, or significant influence over, an investee. The scope of the current IAS 28 Investments in Associates does not include joint ventures.

IFRIC 20 – Stripping Costs in the Production Phase of a Mine: In October 2011, the IASB issued IFRIC 20 which clarifies the requirements for accounting for the costs of stripping activity in the production phase when two benefits accrue: (i) usable ore that can be used to produce inventory and (ii) improved access to further quantities of material that will be mined in future periods.

IAS 1 – Presentation of Financial Statements: IAS 1 has been updated so that items in other comprehensive income will be required to be presented in two categories: items that will be reclassified into profit or loss and those that will not be reclassified. The flexibility to present a statement of comprehensive income as one statement or two separate statements of profit and loss and other comprehensive income remains unchanged.

(c) Principals of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned legal subsidiaries, WK Mining Corp and WK Mining (USA) Ltd. All material intercompany transactions, balances, revenues and expenses are eliminated on consolidation.

3. Deposits Receivable

Deposits receivable of \$226,137 (US\$215,000) have been paid to two exploration service vendors of the Company. These deposits are fully refundable to the Company upon completion of work and settlement of accounts. \$209,296 has been refunded to the Company after period end.

4. Reclamation Bond

The Company's US subsidiary, WK Mining (USA) Ltd., has posted a statewide bond of \$63,108 (US\$60,000) to the Bureau of Land Management (the 'BLM') in the state of Nevada for disturbance of ground required to complete exploration work on projects in Nevada under the jurisdiction of the BLM. This is a statewide bond and is applicable to work done on any property in Nevada. The funds are held in the State of Nevada's reclamation performance bond pool. The Company transferred permits associated with the KB project from Fronteer Gold Inc. to the Company's name. As part of this permit transfer process the Company posted \$7,694 (US\$7,315) from its statewide bond to the KB project.

WK Mining (USA) has also posted a statewide bond of \$50,276 (US\$47,800) to the Division of Oil Gas Mining of Utah ('DOG M') in the state of Utah for disturbance of ground required to complete exploration work on the TUG Project. This is a statewide bond and is applicable to work done on any property in Utah under the jurisdiction of the BLM or DOGM. The funds are held in the State of Utah's reclamation performance bond pool. They are held in an interest bearing account and will be returned with interest when the projects are successfully reclaimed. To date, \$72 (US\$69) in interest was earned on this bond.

WK Mining (USA) has also posted a reclamation bond amounting to \$18,779 (US\$17,853) as required by the BLM for the disturbance of ground required to complete exploration work on the Goldstorm Project located in Northern Nevada. The funds are held in the State of Nevada's reclamation performance bond pool. The amount of the bond was calculated to reflect the estimated cost of the BLM reclaiming the disturbance in the event the Company is unable to do the reclamation. To have the bond returned to the Company, the Company must reclaim the disturbed area to a state deemed acceptable by the BLM. Generally this determination is not made by the BLM until two growing seasons have been completed.

5. Property and Equipment

The Company holds the following property and equipment at June 30, 2013:

Cost	Bridge	Field Equipment	Leasehold Improvements	Vehicles	Total

During the six months ended June 30, 2013 and 2012 the Company capitalized depreciation of \$10,266 and \$15,706 to mineral properties.

During the period the Company sold an ATV, snowmobile and various other assets from the Kirkland Lake office. Total cash proceeds of \$7,135 were received from the sales and a gain on the sale of assets of \$1,065 was recorded in office and general expenses.

In Kirkland Lake, the Company owns a 40 foot modular style steel bridge. The bridge is no longer in use by the Company and is now classified as an asset held for sale. The Company has recorded a net impairment

(a) Nevada, United States

(i) Fronteer

On December 14, 2010, the Company entered into an agreement with Fronteer Gold Inc. ("Fronteer") to option 11 properties which total approximately 234 km² in north eastern Nevada and Utah. In addition, under the terms of the agreement, a private placement with Fronteer for 800,000 common shares of the Company at \$1.25 per share was completed for gross proceeds of \$1,000,000. The funds were spent on exploration activities. On February 3, 2011 Fronteer was acquired by Newmont Mining Corporation ("Newmont"). The acquisition of Fronteer had no effect on the agreement.

West Kirkland has the option to earn a 51% interest on all of the properties by spending \$15,400,000 over four years, with the \$2,000,000 minimum work requirement due on the first anniversary and a \$3,000,000 minimum work requirement due by the second anniversary both having been satisfied at December 31, 2012. As the first and second year minimum work requirements (calculated on an aggregate basis over all the properties) are completed, current work requirements are determined on an individual property by property basis for the third and fourth years of the agreement. Upon completion of the earn-in requirements the Company also has the option of earning an additional nine percent by spending an aggregate \$4,000,000 over two years or completing a pre-feasibility study on any designated property.

In the six months ended June 30, 2013, the Company incurred and capitalized \$941,941 (2012 - \$1,996,248) in exploration costs on the Fronteer properties net of foreign exchange.

On October 18, 2012 the Company acquired, by way of a 25 year lease, an additional 35% of the private mineral interests in certain sections of the TUG property held by a third party. An amount of US\$10,000 was paid upon execution of the agreement. The Company will pay consideration in the form of annual advance royalty payments in the amount of US\$10,000 for the first through fifth anniversary, after the fifth anniversary the annual payment will escalate by US\$5,000, and will escalate by US\$5,000 every five years. Production royalties are payable in the amount of 1.4% of the 35% (0.0049%). During years of production on the property if the production royalty is a larger amount than the advance royalty, no advance royalty will be paid. Under the terms of the agreement signed with Fronteer, these rights were deemed an after-acquired interest and became a component of the TUG Property under that agreement. The Company was reimbursed US\$4,000 of the acquisition costs by Newmont.

(ii) Rubicon

On June 23, 2011, the Company entered into an agreement with Rubicon Minerals Corporation to option 909 km² in north eastern Nevada. West Kirkland has the option to earn a 51% interest in properties that Rubicon owns 100% or 75% of the mineral interest, and 60% of Rubicon's mineral interest where Rubicon's mineral interest is less than 75%, by spending US\$15,000,000 over four years. The Company may earn an additional 9% mineral interest in properties that are 100% owned by Rubicon by spending an additional US\$4,000,000 in exploration expenditures, or by completing a pre-feasibility study on any property.

Under the terms of the agreement the Company made a firm commitment to a first year expenditure on the property package of US\$2,000,000 to be made by June 23, 2012. The deadline to complete this work commitment was subsequently extended to October 31, 2012. Rubicon has acknowledged satisfaction of this commitment.

On January 23, 2013 the remaining three minimum exploration expenditure deadlines were extended to calendar year end instead of the anniversary date of the original agreement thus making the next yearly minimum exploration expenditure (for US\$3,000,000) due to be spent by December 31, 2013.

(b) Kirkland Lake – Ontario, Canada

(i) Cunningham

On September 3, 2010, the Company entered into an option agreement whereby the Company may acquire a 100% interest in mineral claims and mineral rights to patent parcels and licenses of occupation totaling approximately 10 km² in the Holmes and Flavelle Townships west of Kirkland Lake. To complete the option the Company must pay \$320,000 in cash (\$90,000 paid) and make \$600,000 in exploration expenditures (all of which have been made) over 60 months. During the prior year the option was amended to defer a payment of \$30,000 to March 2013. This payment was made. All necessary property expenditures have been completed at March 31, 2013 with \$1,899,460 in total spent. West Kirkland may also acquire the surface rights to the patent parcels by making additional annual payments of \$10,000 (\$30,000 paid to date). The vendor retains a 1% net smelter return royalty purchasable at any time up to commercial production for \$1,000,000. The Company capitalized \$67,617 in exploration costs to the property during the six months ended June 30, 2013 (2012 - \$453,334).

(ii) Sutton

On November 16, 2010 the Company entered into an option agreement whereby the Company may acquire a 100% interest in the 2.03 km² Sutton property located in Holmes Township, west of Kirkland Lake. Optional consideration consists of \$148,000 in cash payments (\$38,000 paid) over six years, and a work program of \$220,000 (which has been completely incurred) within 36 months. All necessary property expenditures have been completed at December 31, 2012, with \$682,610 in total spent. The vendor retains a 2% net smelter royalty of which the Company may purchase three quarters, or 1.5%, for \$500,000 prior to the commencement of commercial production. The Company capitalized no exploration costs to the property during the six months ended June 30, 2013 (2012 - \$168,631).

(iii) McLean

On November 16, 2010, the Company entered into an option agreement to acquire a 100% interest in the 0.57 km² McLean property located in Holmes Township, west of Kirkland Lake. To complete the option the Company must make cash payments totaling \$55,000 (\$17,000 paid) over five years. The Company may acquire the surface rights to the patent parcels by making additional annual payments of \$1,000 (\$3,000 paid to date), and reimbursing applicable taxes on the property. The vendor retains a 1% net smelter royalty, which the Company may purchase at any time prior to commercial production for \$250,000. During the six months ended June 30, 2013, \$7,125 was capitalized to the property, (2012 - \$32,937).

7. Notes Payable

On December 18, 2012, the company entered into a loan agreement in the principal amount of \$90,000 with a director of the Company, and a second loan agreement, also in the principal amount of \$90,000 with a company controlled by a director of the Company. Interest on both notes accrued at a rate of 12% per annum from the date of advance and compounded annually. Total interest of \$1,539 was accrued on each note when they were repaid on February 8, 2013.

On March 6, 2013, 500,000 share options were granted to an officer of the Company. Each share option is exercisable at a price of \$0.22 per share for a period of five years and vests immediately. The Company expensed \$73,933 related to these options and used the Black-Scholes model to determine the grant date fair value using the following assumptions:

Expected life	5.00
Risk-free interest rate	0.97%
Expected volatility ¹	86%
Expected dividends	-

¹Expected volatility is based on the trading history of the Company. Given the limited trading history for the Company, this volatility was then compared to the historical volatility of a peer group of companies with a similar corporate structure and operating in similar regions as the Company. The volatility from the Company's limited trading history was similar to the peer group compared to.

During the period ended June 30, 2013 115,000 share options were cancelled valued at \$49,880. The fair value of these options was transferred from share based payment reserve to deficit.

During the year ended December 31, 2012, as a result of previously granted share options vesting \$12,759 of share compensation expense was recorded in the share based payment reserve.

During the year ended December 31, 2012, 60,000 share options were cancelled and 200,000 share options expired valued at \$37,081 and \$30,057 respectively. The fair value of these options was transferred from share based payment reserve to deficit on expiry.

During the 4th quarter of 2012 a total of 240,000 share options were exercised at \$0.20 per share for total proceeds of \$48,000. Fair value of \$75,330 was attributed to the exercises.

As at June 30, 2013, the weighted average fair value per option outstanding was \$0.26.

9. Capital Risk Management

The Company's objectives in managing its liquidity and capital are to safeguard the Company's ability to continue as a going concern and to provide financial capacity to meet its strategic objectives. The capital structure of the Company consists of equity attributable to common shareholders, comprising of issued share capital, reserves and accumulated deficit.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt and acquire or dispose of mineral rights.

West Kirkland Mining Inc.
Notes to the consolidated financial statements
June 30, 2013

(Expressed in Canadian dollars)
(Unaudited)

As at June 30, 2013 the Company does not have any long-term debt and is not subject to any externally imposed capital requirements.

10. Financial Risk Management

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks.

(a) Fair Value

As at June 30, 2013, the Company's financial instruments consist of cash, accounts receivable, reclamation bonds, accounts payable and accrued liabilities. The fair values of accounts receivable and accounts payable approximate their carrying values due to the short-term nature of these instruments and the fair value of the reclamation bonds approximates their fair value due to the fact they earn interest at rates approximating market rates.

(b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to the short-term interest rates through the interest earned on cash balances; however, management does not believe this exposure is significant.

(c) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer fails to meet its contractual obligations. The Company is exposed to credit risk through its cash which is held in large Canadian financial institutions and accounts receivable. The Company believes this credit risk is insignificant.

(d) Foreign Currency Risk

Foreign currency risk is the risk that the fair value of financial instruments or future cash flows will fluctuate as a result of changes in foreign exchange rates. The Company operates in Canada and the United States and is therefore exposed to foreign currency risk arising from transactions denominated in U.S. dollars. Certain amounts of the Company's accounts payable and accrued liabilities are denominated in U.S. dollars. A 10% change in the exchange rate between the Canadian and United States dollar would have an effect on the loss before income taxes for the period ended June 30, 2013 of approximately \$57,994. The Company monitors its net exposure to foreign currency fluctuations and adjusts its cash held in U.S. dollars accordingly. The following table lists the Canadian dollar equivalent of financial instruments and other current assets denominated in U.S. dollars as of June 30 2013:

	June 30, 2013	December 31, 2012
Cash	\$ 429,510	\$ 86,050
Accounts receivable	18,252	84,494
Refundable deposits	231,520	-
Prepays and other	8,080	9,585
Reclamation bond	132,235	125,082
Accounts payable and accrued liabilities	231,581	689,550

(e) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure.
